ADVANTAGES OF ROLLOUT RECYCLING

- ❑ The 96-gallon cart provides more than five times the capacity of the 18-gallon bin.
- ❑ Eliminates the need to separate paper products from plastics, glass, and metals.
- ❑ Cardboard does not have to be broken down as long as it fits completely inside the cart.
- ❑ Increases the amount of recyclable materials collected weekly.
- ❑ Makes storage of recyclables more manageable from week-to-week.
- ❑ Allows the use of automated equipment for collection, thereby reducing collection times and carbon emissions.
- ❑ Saves natural resources; conserves energy; reduces greenhouse gases, pollution, and problems associated with litter.

Waste Management of the Piedmont thanks you for your dedication to recycle. Please visit our website at www.wm.com to learn more about the recycling opportunities Waste Management has to offer.
